ACCUSLIT B-20
Slitting & Tapping Machine

V.PT722.0.1

ACCUSLIT B-20 **Slitting & Tapping Machine**

TECHNICAL SPECIFICATION

MACHINE DIMENSION	760 x 610 x 1270 (mm)
POWER SUPPLY	220V AC (50 Hz)
POWER CONSUMPTION	500 WATTS
SPEED	UPTO 15 SHEETS / MIN A3 SIZE
MAX PAPER SIZE	510 mm x 510 mm 20" x 20" (INCH)
MIN PAPER SIZE	200 mm x 200 mm 8" x 8"(INCH)
PAPER THICKNESS	MIN 150 gsm – MAX 300 gsm
TAPE SIZE	15mm x 0.025mm
MAX SPINE	UPTO 20mm
AIR COMPRESSOR	PNEUMATIC CONNECTION REQUIRED

Some Photobooks that are made by using a special Media, which has an exclusive texture and the Media itself has a rich and enhanced surface, e.g., Texture paper, Metallic paper, Luster paper, etc. Laminating the Special Media reduces the charm and richness of the Special Media.

We have designed a special machine, AccuSlit B-20, to solve this problem. AccuSlit B-20, Slits and Tapes the Spine Area, at the same time, by strengthening and adding flexibility to the Spine side, inspite of the Slitting process.

AccuSlit B-20 is a multi-functional Slit and Strip Bonding machine for creating a complete Lay Flat Opening in a Photobook.

Here, the Media is manually feeded. The Slitting distance from the Spine is adjustable. The Paper Guide, provided in AccuSlit B-20, helps in setting and maintaining the distance from the Spine on one side.

FEATURES

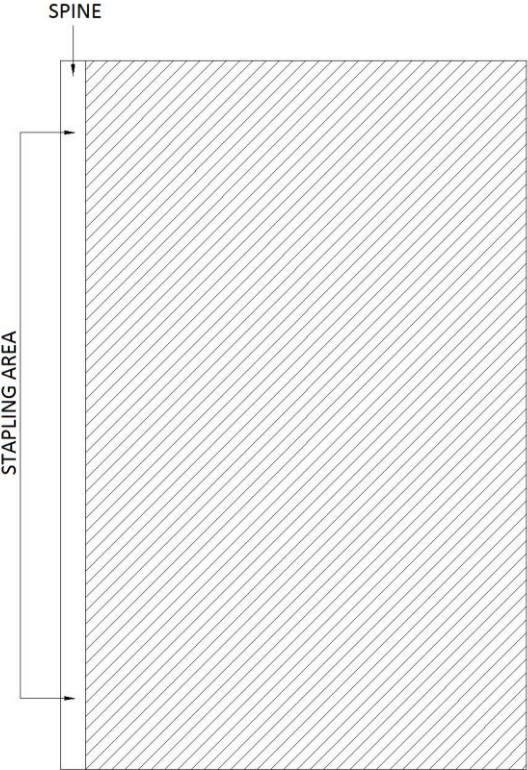

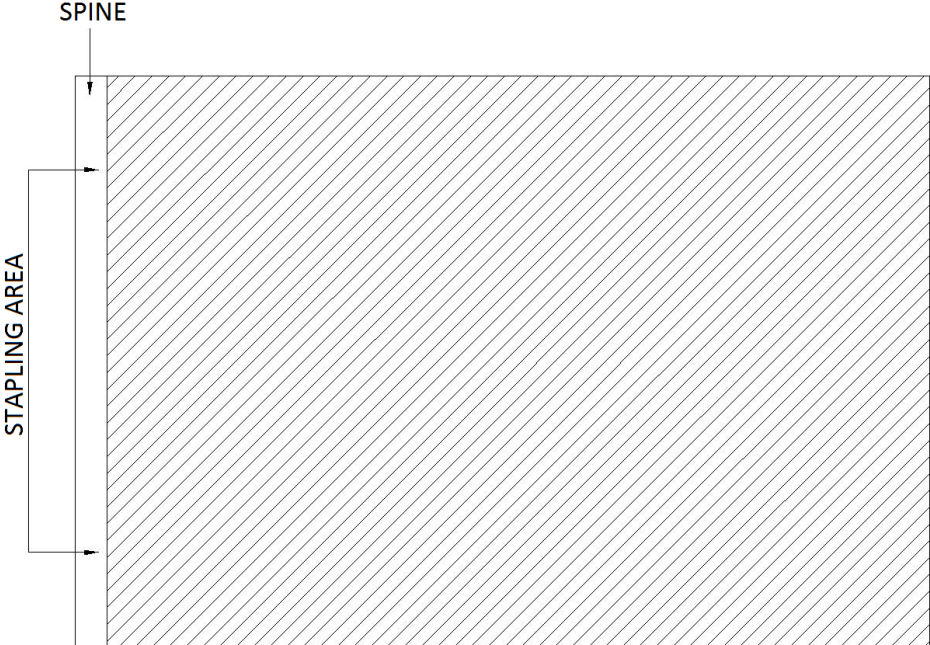

❖ Manual Feeding

Manual Feeding: For enhanced precision and accuracy in feeding, the Roller is specifically programmed to prevent overlapping and maintain a consistent distance between two sheets.

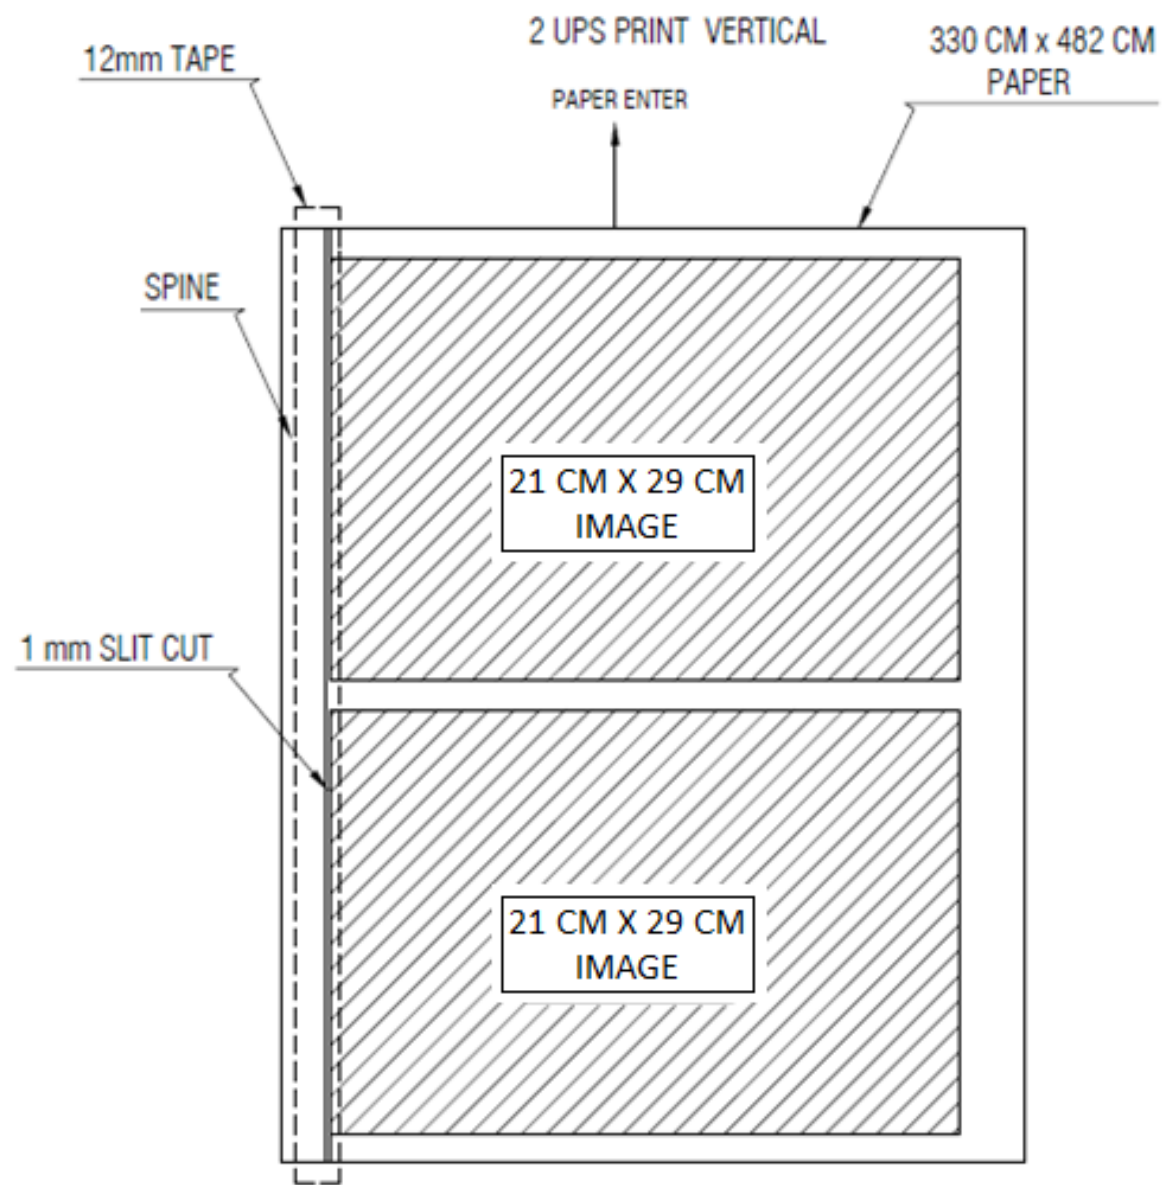

❖ One Slitting Device

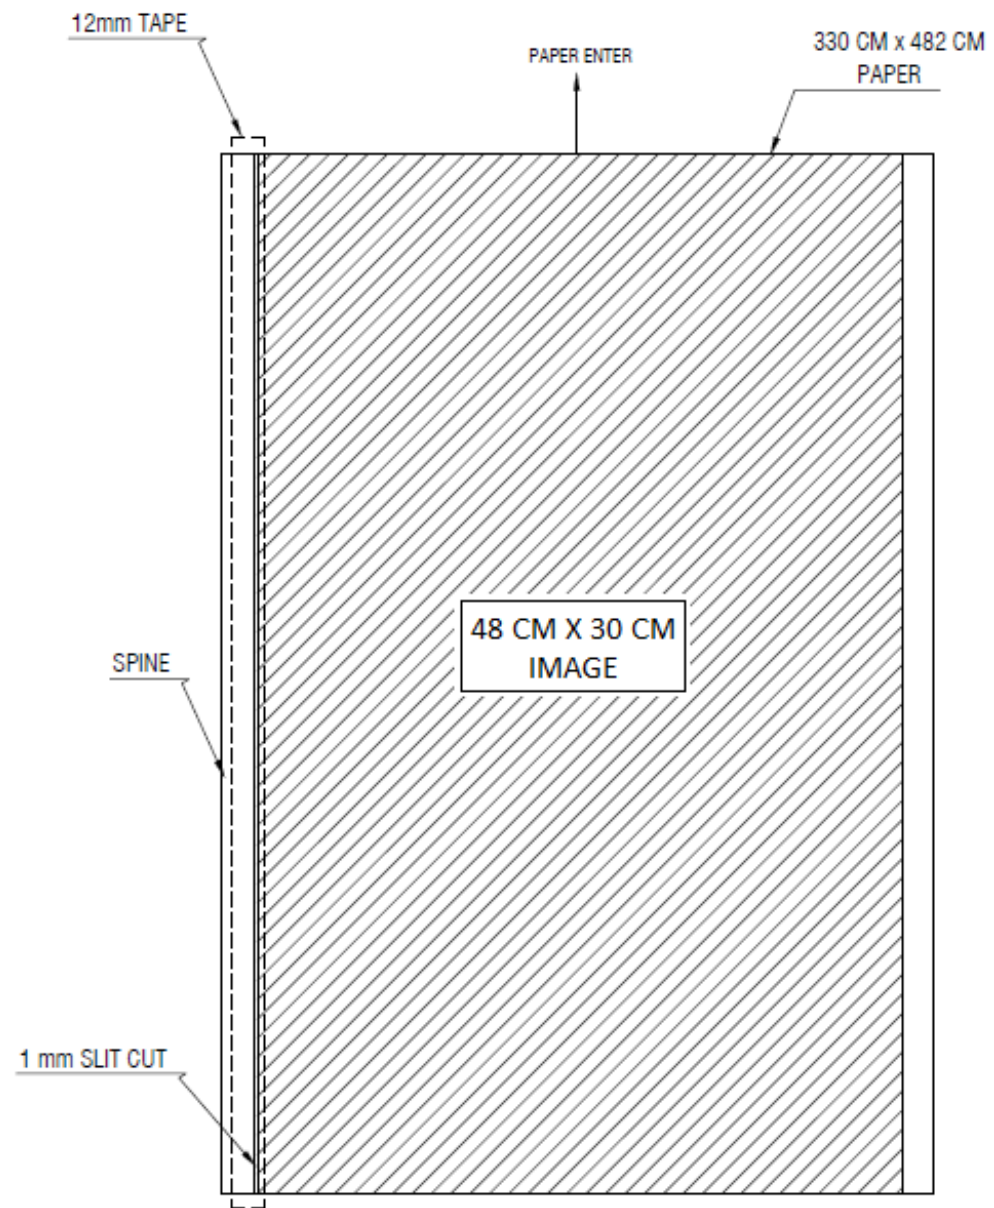

The Slitting and Tapping Device is fixed, but we can Adjust the Paper guide to align with the Slitting area on the Print.

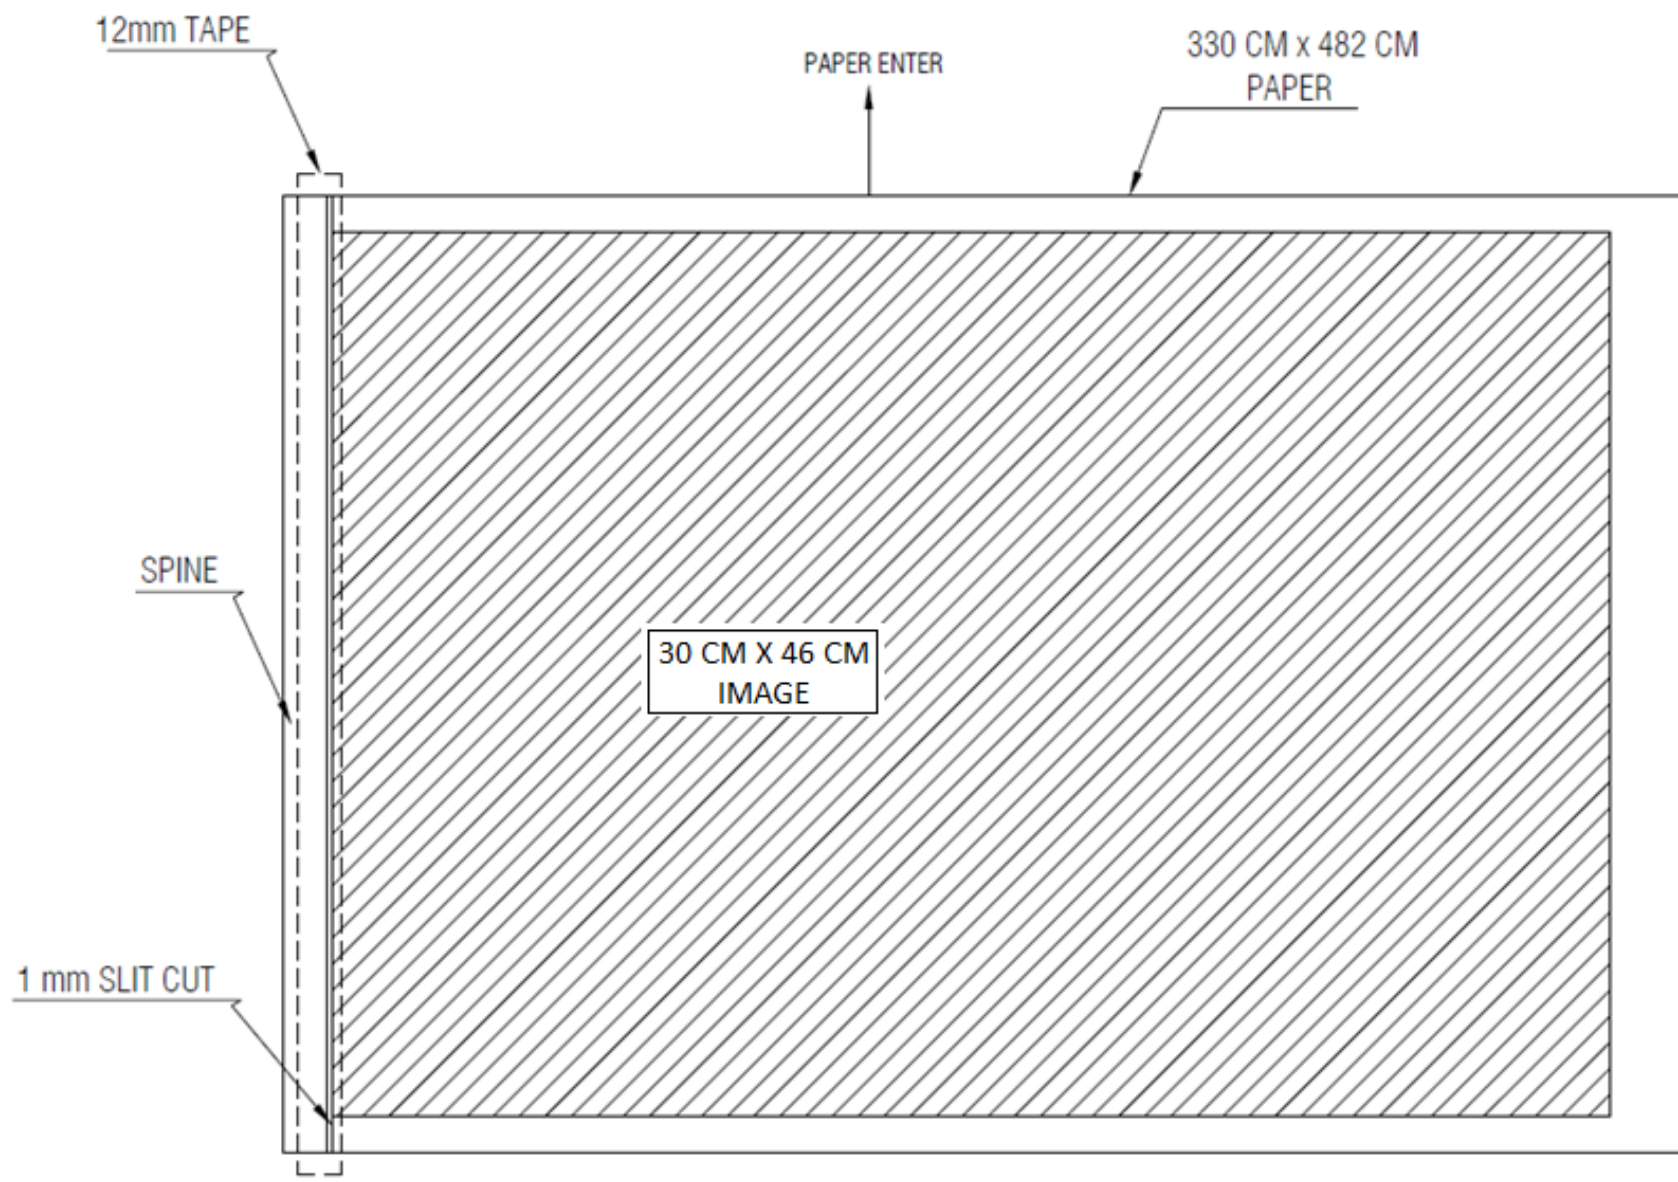

SPINE & STAPLING AREA

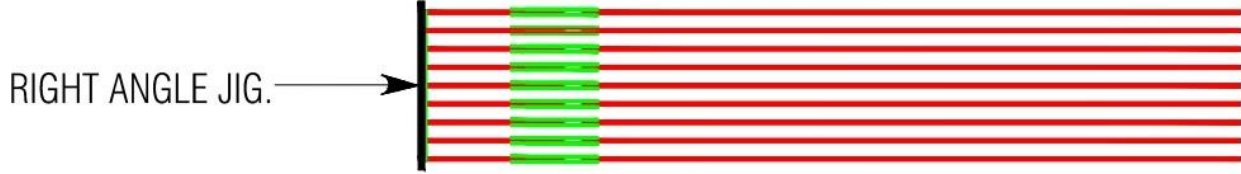

NO. OF PAGES	REQUIRED SPINE DISTANCE
10 TO 40	15 MM
40 TO 60	18 MM
60 TO 80	20 MM
