

Product Introduction

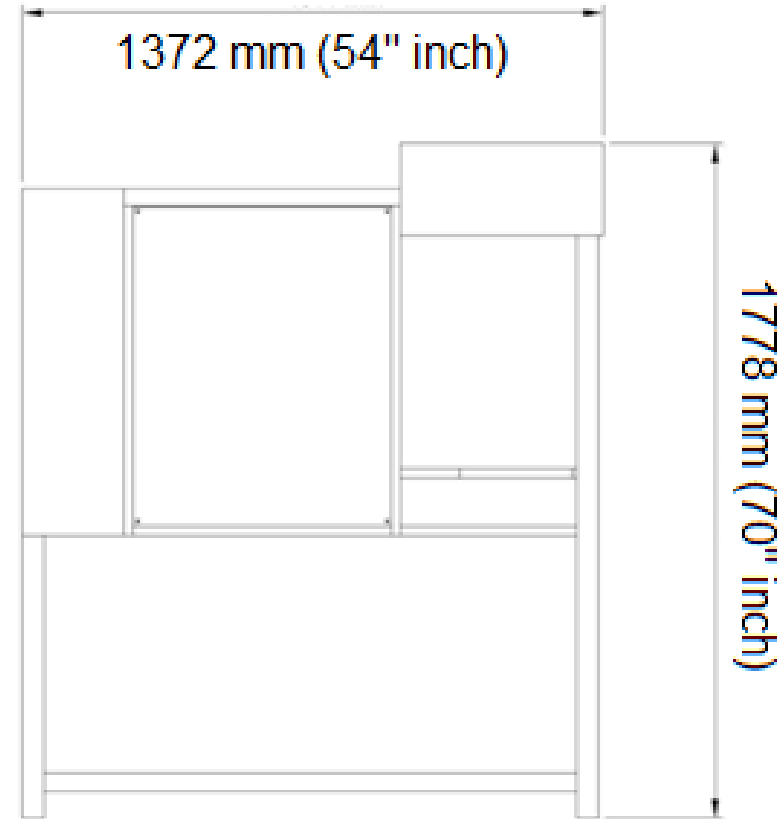

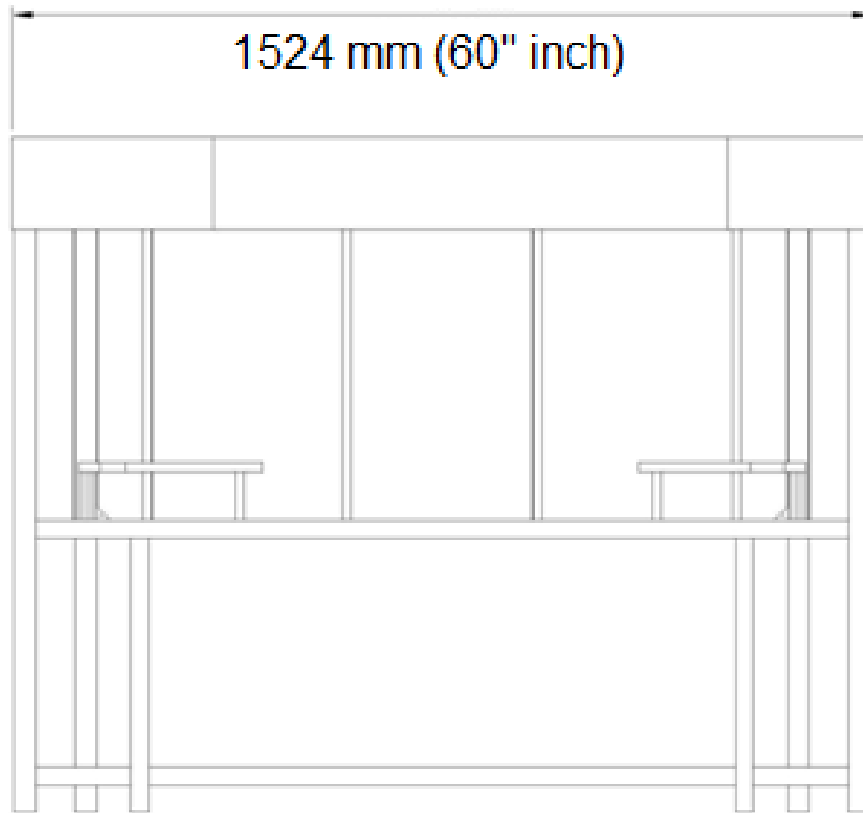

Three Dimensional UV Curing System

Three Dimensional UV Curing System

Three Dimensional UV Curing System Floor Dimension

This is a special design machine to cure 3 dimensional UV coated products. Conveyor design is such where UV rays touched all surface of the product and it cures perfectly We have different model in this as per the product specifications as well out put speed.

FEATURES

- ❖ This is specially design Dryer it includes the Hot air dryer and UV dryer in one single conveyor.
- ❖ Article Hanging Conveyor with self rotating Jigs.
- ❖ Easy to Operate.
- ❖ 4 Nos 25” UV Lamp, can use two lamp at the time.
- ❖ Speed : Adjustable conveyor speed with AC Geared motor and drive.
- ❖ Timing for Hot air dryer : 10 min (Variable) Specially design air curtain – before and after of Hot air dryer. The technology will help to prevent to heat loss and for power saving.

TECHNICAL SPECIFICATION

MACHINE DIMENSION	2391 x 1614 x 1877(mm)
POWER SUPPLY	3 PH + N
POWER CONSUMPTION	20 KW (APPROX)
CONVEYOR SPEED	Variable With AC Drive
MATERIAL	MS Powder Coating OR SS 304
